Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat

hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with an in-depth guide to each of the model variants produced. The cars' current position in the classic car market is

considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.

The last thing billionaire Ricardo Almanza wants is to be married. Unfortunately, the notorious playboy needs wife before he's thirty, and time is running out. His stepmother's sexy, debt-ridden personal assistant seems like the perfect solution, so he makes her a business deal she can't refuse—one million euros for three months as his wife. He might even enjoy being married to Helen...providing he can convince her not to kick him somewhere painful again. Helen Marshall can't believe Ricardo's outrageous proposal, or that she's considering it, but she must help clear her parents' debts or her family faces financial ruin. The small print on the marriage contract

states they will be husband and wife for three months in every way including in the bedroom. But there's nothing in the contract about falling in love, or what they do when the three months is up and they want to negotiate a clause binding them forever.

Alfa Romeo is synonymous with style and performance. These qualities are epitomized in forty years' production of the famous Alfa Romeo series of Spider sports cars. From the Giulietta Spider of 1955 to the latest style launched in 1996, John Tipler offers the full and fascinating story of the conception, design, introduction and production of these stylish automobiles.

The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles

of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.

Ten years have passed since the original edition of this book was published, but Alfa Romeo enthusiasts everywhere are more active today than ever in preserving, modifying and racing these excellent cars. Throughout this time, the author in true Alfista fashion, never stopped looking for and trying new techniques to increase the power, overall performance and reliability of Alfas and their engines. This book is the result of much research, and also first-hand experience gained through many Alfa rear wheel drive model projects, from the 105 series to the last of the 75 models. There is a
