shape at any point. Cellulite is something that occurs when the fat cells in the deepest layers of the skin become over-inflated due to an increase in fat storage, causing them to show through the tissue and giving the skin a dimpled or "orange peel" appearance.

VelaShape Body Shaping - Non-Invasive Cellulite Reduction

Almost all women experience it: cellulite. Fat cells build up in pockets of collagen under the skin, making it look uneven and dimpled. These fat cell build-ups compress blood vessels and lymphatic vessels, making it harder for the body to drain away toxins and excess water.

Cellulite - Skin & You

Laser Lipo treatment is the most advanced, non-invasive, non-surgical method for reshaping the body, at the same time reducing fat tissue and tightening the skin. WHY? The treatment provides smooth and tight skin, the reduction and reshaping of fatty deposits; it reduces the appearance of cellulite and improves the elasticity of the skin with no need for additional recovery.
