Diesel Performance Exhaust Emission Products

(Washington, DC - September 12, 2019) Today, the U.S. Department of Justice and the Environmental Protection Agency (EPA) announced a settlement with Performance Diesel Inc. (PDI) to resolve alleged violations of the Clean Air Act (CAA) associated with the manufacture, sale and installation of aftermarket products that defeat the emissions control systems of heavy-duty diesel engines.

Performance Diesel, Inc. Clean Air Act Settlement ...

A: Generally speaking no, the emissions equipment upstream will still act as a muffler. However, that doesn't mean installation will not help in other areas by improving exhaust flow. While minor, the benefits are noticeable, plus an aftermarket exhaust looks way better than the stock exhaust.

EPA provides grants under DERA to protect human health and improve air quality by reducing emissions from diesel engines. The particles in diesel exhaust can penetrate deep into the lungs and pose serious health risks, including increasing the risk of cancer and aggravating the symptoms of asthma and other respiratory problems.
