Other projects soon followed. At Golden Grove Prison in Trinidad, where inmates had been tending an enclosed garden in a field by hauling watering cans back and forth in blazing heat, McClung set up a self-irrigating water collection system and a fish pond and added vertical growing — raising plants in stacked layers instead of in the ground — to boost the garden's production.

**The Ambassador of God provides exhaustive and in-depth answers to very difficult questions about our cosmic origin and the planet earth. Almost everything to do with the Sun, Moon, Stars, Water, Mars, Jupiter, Aliens... and most importantly - God About the book and author \_\_\_\_\_ God is real. And for the first time, experimental and observable science reveals his existence. Throughout history, many have argued the existence of God, yet discussions of the Divine have been limited to the realm of philosophy and religion. But what if nature could reveal its creator? And what if science could provide compelling evidences that we have never seen before? What if the identity of the creator behind the origin of our universe can be known for certain? What if... This is what The Ambassador of God, a ground breaking look at our cosmic origin, has provided. In this probing book, difficult questions are answered. As renowned scientists and thinkers challenge the biblical narratives for our cosmic origin, The Ambassador of God uncovers the mysteries that have been hidden from human eyes. Using compelling evidences from astronomy to investigate the underpinnings of the Bible, The Ambassador of God provides a 'cosmic objective certainty' for the existence of a universal Creator. Additionally, it unveils a well of exhaustive insights that eliminates ambiguities in our understanding. How is it possible that God is one and three distinct persons, but not three Gods? Why is the earth and the human body mostly water? Who created the sun, moon and stars? What about aliens and the other solar planets? What is the mystery and purpose behind human existence and other life forms on our planet earth? Why are we here and how did we first arrive on this planet? How do we come to understand divinity in the current scheme of scientific reasoning? How do we make peace with the grand designer behind it all? Reader's seeking answers to these questions (and other similar questions) will find them here. They will not find dogma. Instead, they will embark on a journey-an experimental voyage through the lens of science that reveals the mind of God. In a "show" rather than "tell" fashion and a template that's more coherent than any prevailing secular science view, we shall find who God is! Who is the Author? Olumide Sanya is a contemporary poet and writer. Beside poetry and writing, Lumi, as he is affectionately known, helps others to achieve their dreams as a life coach. Unusually drawn to books between the ages of 4 - 9, Lumi neither enjoyed reading nor read books but spent his childhood years looking for abandoned tomes that he turned into a formidable collection. Despite being a non-reader, he realised the dream of becoming a writer in his tender years and for more than 12 years, he abandoned this dream. ...Until one day, God paid him a visit. But it didn't start there, it began with falling in love and writing poems about love and heartbreaks but that's another story for another year. "God has a sense of humor," says Lumi. "It's not hard to see that if you know my story-where I've been, where I'm at, and what God has planned for my tomorrow. What is most important to recognize is what God can do with a 'nobody' like me." The Ambassador of God, he notes, is not just about answers to large existential questions "It is also a road map that offers optimism and guidance in today's confused and increasingly complex modern world." You don't have to be a physics professor or a philosopher to understand Sanya's work. The Ambassador of God aims to open discussion and understanding at the broadest possible level. It is written for everyday people.**

**FULL-COLOR EDITION QUOTES FROM THOSE WHO KNOW: THE OPENING OF THE FIRST BIODOME GARDEN IN OTTAWA - AUGUST 27, 2014 "On August 17, 2014 the Brewer Park Community Garden (BPCG), situated across from Brewer Arena, celebrated the grand opening of Ottawa's first Biodome Garden project. To commemorate the day, the Park hosted a ribbon cutting ceremony along with an afternoon of events, including a barbecue and tours of the Biodome and gardens... When asked about the inspiration for the Biodome Garden, Oster credited the ever-enduring spirit of his co-project leader, Guy Souliere and the pages of Patricia Watters' book, The Biodome Garden Book..." "The completion of the Biodome Garden marks an historic moment for Ottawa. The project is the first structure of its kind in Eastern Canada, making it an exciting achievement that sets a high standard and precedence for future similar structures to be built in the Region." "It is the hope of the Brewer Park Community Garden that this innovative project will be replicated many times in several different forms across the City and Ottawa Region. Its replication could shape the beginning of a much more healthy and sustainable food culture across Ottawa." --SPACING MAGAZINE "Even before the advent of biodomes, experimentation had already begun with domed enclosures that could sustain year-round gardens. At the forefront was Patricia Watters, author of the "The Biodome Garden Book," the premier book on passive-solar biodome greenhouse gardening. (WHOLE LIFE TIMES MAGAZINE) "May as well start off with the most comprehensive food production system that I have ever come across. A wonderful lady named Patricia Watters has written a book on how to construct a system that not only produces produce, but also fish, (a great protein source) in an environment that does not require sprays or the traditional heating and electrical expenses associated with green house systems."
