Life at the Limit: Triumph and Tragedy in Formula One ...

Given the high drama of life and death in Formula 1 and given the key--indeed heroic--role Dr. W. played in dragging the sport by the scruff of the neck to sacrifice a little of its mega profits on safety for drivers, crews, and spectators, this book sort of falls flat.

An autobiography from one of the biggest figures in motor racing. 'It's pretty rare to come across a motor racing book that tempts you to read the thing in one sitting but "Prof" Watkins has produced a gem ... [he] is a superb raconteur, not afraid to speak his mind yet peppering the gravity with occasionally side-splitting humour. No true motorsport fan should be without this book.' Autosport Grand Prix racing has undergone sweeping changes in the last thirty years. Many of these involve safety and medical rescue. The man behind them - a champion in the racing world although he has never won a race - is the eminent neurosurgeon Sid Watkins. Life at the Limit is his remarkable story. It spans the most exciting years in Grand Prix racing and includes intimate portraits of motorsport's greatest names, from Jackie Stewart and Niki Lauda to Alain Prost and Damon Hill. Sid Watkins has also witnessed, at first hand, some of the most severe and spectacular racing accidents. His account of these is made all the more poignant by the fact that some of the men he has rescued, sometimes at the point of death, have been personal friends. From Monza, in 1978, where Ronnie Petersen suffered a fatal accident, to Imola in May 1994 where Ayrton Senna met his untimely death, the high, and low, points of Grand Prix racing are vividly described. For all fans of Formula One, this is the inside story of the world's most dangerous sport.

TRMPPH & TRAGEDY F1 WATKINS/LAUDA

James M Landis – scholar, administrator, advocate and political adviser – is known for his seminal contribution to the creation of the modern system of market regulation in the USA. As a highly influential participant in the politics of the New Deal he drafted the statute which was to become the foundation for securities regulation in the US, and by extension the founding principle of financial market regulation across the world. He was also a complex and in some ways tragic figure, whose glittering career collapsed following the revelation that he had failed to pay tax for a five year period in the 1950s. The oversight was to cost possible elevation to the Supreme Court, forced prosecution and sentencing in 1963 to one month's imprisonment, commuted to forced hospitalisation, and subsequent suspension of licence to practise. This candid and revealing book sets his life in the context of his work as an academic, legislative draftsman, administrator and Dean of Harvard Law School. In rescuing from history Landis's battles and achievements in regulatory design, theory and practice, it speaks directly to the perennial problems in financial market regulation - how to deal with institutions deemed too big to fail, how to regulate the sale of complex financial instruments and what role can the professions play as gatekeepers of market integrity. It argues that in failing to learn from the lessons of history we limit the capacity of regulatory intervention to facilitate cultural change, without which contemporary responses to financial crises are destined to fail.

In THE LIMIT, Michael Cannell tells the enthralling story of Phil Hill-a lowly California mechanic who would become the first American-born driver to win the Grand Prix-and, on the fiftieth anniversary of his triumph, brings to life a vanished world of glamour, valor, and daring. With the pacing and vivid description of a novel, THE LIMIT charts the journey that brought Hill from dusty California lots racing midget cars into the ranks of a singular breed of men, competing with daredevils for glory on Grand Prix tracks across Europe. Facing death at every turn, these men rounded circuits at well over 150 mph in an era before seat belts or roll bars-an era when drivers were "crushed, burned, and beheaded with unnerving regularity." From the stink of grease-smothered pits to the long anxious nights in lonely European hotels, from the tense camaraderie of teammates to the trembling suspense of photo finishes, THE LIMIT captures the 1961 season that would mark the high point of Hill's career. It brings readers up close to the remarkable men who surrounded Hill on the circuit-men like Hill's teammate and rival, the soigné and cool-headed German count Wolfgang Von Trips (nicknamed "Count Von Crash"), and Enzo Ferrari, the reclusive and monomaniacal padrone of the Ferrari racing empire. Race by race, THE LIMIT carries readers to its riveting and startling climax-the final contest that would decide it all, one of the deadliest in Grand Prix history.

From the heat and sands of Sudan to the rolling hills of Central Pennsylvania, Hagir Elsheikh has travelled through life overcoming obstacles most would find insurmountable. Her autobiography will captivate you with details of her childhood in war-torn, poverty-stricken Sudan. You will hear about how social mores can inflict severe pain and suffering on female children - children already identified as second class human beings in an Islamic society by virtue of their femininity. She takes us through her rebel teen years and many arrests and tortures that brought. Still in high school, her activism caused her to experience what happens in the infamous "Ghost Houses" of Sudan where brutality and murder are as common as the sand that permeates everything in that region. Forced to flee, we learn the path of a refugee is most difficult, dangerous and challenging. Safety in America brings a euphoria that is all too soon dashed at the hands of an abusive spousal relationship. This amazing spokesperson for women everywhere has dedicated her life to her family, her business and an undaunted activism for the rights of women and all humanity - spousal abuse, female genital mutilation, equality for women and those suffering the atrocities of the vicious Islamic Dictatorship in the land of her birth - all are on her daily agenda. Join us as a sweet, precocious child begins her journey through the sands of life as she begins her quest to "Climb on the Clouds". Tom Peashey

Total Competition is the most compelling, comprehensive and revealing insight into what it takes to get to the top in Formula One that has ever been published. Across four decades, Ross Brawn was one of the most innovative and successful technical directors and then team principals in Formula One. Leading Benetton, Ferrari, Honda, Brawn and Mercedes, he worked with drivers such as Michael Schumacher, Jenson Button and Lewis Hamilton to make them world champions. In 2017, he was appointed F1's managing director, motor sports, by the sport's new owners Liberty Media. Now, in this fascinating book written with Adam Parr (who was CEO and then chairman of Williams for five years), he looks back over his career and methods to assess how he did it, and where occasionally he got things wrong. **Total Competition** is a definitive portrait of modern motorsport. In the book, Brawn and Parr explore the unique pressures of Formula One, their battles with Bernie Ecclestone, and the cut-throat world they inhabited, where coming second is never good enough. This book will appeal not only to the millions of Formula One fans who want to understand how Brawn operates, it will also provide many lessons in how to achieve your own business goals. 'A must-have insight into the awe-inspiring career of a true motor racing great' *Daily Express*
