For gearheads who want to build or modify popular LS engines, *How to Build and Modify GM LS-Series Engines* provides the most detailed and extensive instructions ever offered for those modding LS engines through the Gen IV models. The LS1 engine shook the performance world when introduced in the 1997 Corvette. Today the LS9 version far eclipses even the mightiest big-blocks from the muscle car era, and it does so while meeting modern emissions requirements and delivering respectable fuel economy. Premier LS engine technician Joseph Potak addresses every question that might come up: Block selection and modifications Crankshaft and piston assemblies Cylinder heads, camshafts, and valvetrain Intake manifolds and fuel system Header selection Setting up ring and bearing clearances for specific uses Potak also guides readers through forced induction and nitrous oxide applications. In addition, the book is fully illustrated with color photography and detailed captions to further guide readers through the mods described, from initial steps to final assembly. Whatever the reader's performance goals, *How to Build and Modify GM LS-Series Engines* will guide readers through the necessary modifications and how to make them. It's the ultimate resource for building the ultimate LS-series engine! The Motorbooks Workshop series covers topics that engage and interest car and motorcycle enthusiasts. Written by subject-matter experts and illustrated with step-by-step and how-it's-done reference images, *Motorbooks Workshop* is the ultimate resource for how-to know-how.

The *Critical Heritage* gathers together a large body of critical sources on major figures in literature. Each volume presents contemporary responses on a writer's work, enabling student and researcher to read the material themselves.

A riveting investigation of the brutal murders of two Dartmouth professors — a book that, like *In Cold Blood*, reveals the chilling reality behind a murder that captivated the nation. On a cold night in January 2001, the idyllic community of Dartmouth College was shattered by the discovery that two of its most beloved professors had been hacked to death in their own home. Investigators searched helplessly for clues linking the victims, Half and Susanne Zantop, to their murderer or murderers. A few weeks later, across the river, in the town of Chelsea, Vermont, police cars were spotted in front of the house of high school senior Robert Tulloch. The police had come to question Tulloch and his best friend, Jim Parker. Soon, the town discovered the incomprehensible reality that Tulloch and Parker, two of Chelsea's brightest and most popular sons, were now fugitives, wanted for the murders of Half and Susanne Zantop. Authors Mitchell Zuckoff and Dick Lehr provide a vivid explication of a murder that captivated the nation, as well as dramatic revelations about the forces that turned two popular teenagers into killers. *Judgement Ridge* conveys a deep appreciation for the lives (and the devastating loss) of Half and Susanne Zantop, while also providing a clear portrait of the killers, their families, and their community — and, perhaps, a warning to any parent about what evil may lurk in the hearts of boys.
