Blending heart-pounding action and historical accuracy, Harry Sidebottom's bestselling Warrior of Rome series took readers from the shouts of the battlefield to the whisperings of the emperor's inner circle. Now, Sidebottom sets his sights on one of the bloodiest periods of Roman history—the Year of the Six Emperors. In spring AD 235, a surprise attack and the brutal murder of Emperor Alexander and his mother ends the Severan dynasty and shatters four decades of Roman certainty. Military hero Maximinus Thrax is the first Caesar risen from the barracks. A simple man of steel and violence, he will fight for Rome unconditionally. The Senators praise the new Emperor with elaborate oratory, but will any of them accept a Caesar who was once a shepherd boy? In the north, as the merciless war against the barbarians consumes men and treasure, rebellion and personal tragedy drive Maximinus to desperate extremes, bloody revenge, and the borders of sanity. Iron and Rust creates a world both sophisticated and brutal, yet firmly rooted in history. Game of Thrones-meets-300: Rise of an Empire, this is a world of intrigue, murder, passion, and war—a world where men will kill to sit on the Throne of the Caesars.

Ochre and Rust offers a fresh perspective on frontier relations between Australian Aboriginal people and European colonists. Nine museum artefacts take the reader into a fascinating zone of encounter and mutual curiosity between collectors and those indigenous people who piqued or responded to their interest. While colonialism is the broad frame, details gleaned from archives, images and the objects themselves reveal a new picture of interaction between individual Aboriginal people and European collectors. Philip Jones explores and makes sense of particular historical moments in colonial history, when Aboriginal people perceived and expected other, more elusive outcomes. Ochre and Rust, an elegantly written challenge to received wisdom about the colonial frontier, has won Australia's inaugural Prime Minister's Award for Literary Non-Fiction.

This refreshed and dynamic Eighth Edition of Keeping the Republic revitalizes the twin themes of power and citizenship by adding to the imperative for students to navigate competing political narratives about who should get what, and how they should get it. The exploding possibilities of the digital age make this task all the more urgent and complex. Christine Barbour and Gerald Wright, the authors of this bestseller, continue to meet students where they are in order to give them a sophisticated understanding of American politics and teach them the skills to think critically about it. The entire book has been refocused to look not just at power and citizenship but at the role that control of information and its savvy consumption play in keeping the republic.
