The only one-stop resource of every medical supplier licensed to sell products in the US. This edition offers immediate access to over 13,000 companies and more than 65,000 products - in two information-packed volumes. This comprehensive resource saves hours of time and trouble when searching for medical equipment and supplies and the manufacturers who provide them. Volume I: The Product Directory, provides essential information for purchasing or specifying medical supplies for every medical device, supply, and diagnostic available in the US. Listings provide FDA codes & Federal Procurement Eligibility, Contact information for every manufacturer of the product along with Prices and Product Specifications. Volume 2: Supplier Profiles, offers the most complete and important data about Suppliers, Manufacturers and Distributors. Company Profiles detail the number of employees, ownership, method of distribution, sales volume, net income, key executives, detailed contact information, the medical products the company supplies, plus the medical specialties they cover. Four indexes provide immediate access to this wealth of information: Keyword Index, Trade Name Index, Supplier Geographical Index and OEM (Original Equipment Manufacturer) Index. Medical Device Register is the only one-stop source for locating suppliers and products; looking for new manufacturers or hard-to-find medical devices; comparing products and companies; knowing who's selling what and who to buy from cost effectively. This directory has become the standard in its field and will be a welcome addition to the reference collection of any medical library, large public library, university library, along with the collections that serve the medical community.

NATUROPATHIC PHYSICAL MEDICINE provides a philosophical naturopathic perspective, as well as practical clinical applications, for manual and physical approaches to health care. A wide range of bodywork and movement approaches and modalities are evaluated in relation to their ability to be appropriately used in naturopathic treatment and rehabilitation settings. The model of care emphasised in this text recognizes that naturopathically oriented therapeutic interventions usually focus on achieving one or all of the following: enhancement of function so that the person, system or part, can better self-regulate in response to adaptive demands; modification or removal of adaptive load factors; and symptomatic relief without creation of significant additional adaptive changes.
